

# Create a shortcut to HydroApp on your mobile phone.

## Android

1. Open your browser. Type the address [www.hydroware.com/apps](http://www.hydroware.com/apps)
2. Save the page as a bookmark. It might differ depending on the brand of the phone. In some, there is a star at top right beside the address line. In others, you must press and hold the fixed menu button and then "select Add Bookmark."
3. HydroApp is now added to your bookmarks. Go in and look at your bookmarks, locate HydroApp, press and hold the bookmark until a new menu appears. Select "Add shortcut to home page / website"

*(Click to view a larger picture.)*

4. Now you have a shortcut directly to HydroApp on your home screen.

## Iphone

1. Open Safari. Type the address [www.hydroware.com/apps](http://www.hydroware.com/apps)
2. At the bottom of the screen, press the small box with an arrow inside it. Choose "Add to home screen".

*(Click to view a larger picture.)*

3. You have now added a shortcut directly to HydroApp on your home screen.
